

A New Pension Bill.

Adj.-Gen. Gray of the Grand Army of the Republic is busily engaged in issuing to all the posts in the country a dependent pension bill, whose passage will be urged upon the next congress. It was drafted by the national pension committee of the G. A. R., composed of the following members: Geo. S. Merrill of Lawrence, Mass.; Louis Wagner of Philadelphia; James Tanner of Brooklyn, N. Y.; John C. Lincoln of Toledo, N. H.; and John S. Kuntz of Toledo, O. This committee was appointed by Commander-in-Chief Fairchild under a resolution of the national encampment.

Section 1 of the bill provides that in considering the pension claims of dependent parents, the fact and cause of death, and the fact that the soldier left no widow or minor child or children, having been shown as required by law, it shall be necessary only to show by competent and sufficient evidence that such parent or parents are or have been without other means of support than their own manual labor or the contributions of others not legally bound for their support. Provided, that all pension claims allowed under the provisions of this act shall commence from date of actual dependence of claimant, and shall be paid from the date of the filing of the application in the pension office, or from date of the subsequent dependence.

Section 2 provides that all persons who served three months in the military or naval service of the United States and who have been honorably discharged, and are suffering from mental or physical disability not the result of their own vicious habits, shall be entitled to receive, per month, that persons who are now receiving pensions under existing laws, or whose claims are pending in the pension office, may receive the benefits of this act, that no person shall be entitled to receive a pension for the same period, and rank in the service shall not be considered.

Section 3 provides that if any invalid pensioner has died, or shall hereafter die, leaving a widow, minor child or children under 18 years of age or in case there be no widow or minor children, a dependent mother or father, such widow, minor child or children, or mother or father, shall be placed upon the pension roll at the rates established by law, for widows, minor children and parent, without regard to the cause of death of such pensioner, provided, that said widow be married, and the deceased pensioner prior to the passage of this act. That the increase of pension for minor children shall be at the rate of \$5 per month instead of \$3, and in case a minor child is insane, idiotic or otherwise helpless, the pension shall continue during the life of said child or during the period of such disability.

Section 4 imposes a fine of \$50 or imprisonment at hard labor not exceeding two years, or both, in the discretion of the court, on agents of attorneys acting in violation of the provisions of this act, by the order of the commissioner of pensions, by the pension agent making payment of the pension allowed.

Criticizing Congress.

The national legislative committee of the knights of labor have submitted to the general executive board a report of their labor during the short session of the forty-ninth congress. The letter carries eight hour bill, says the report, was anticipated by Mr. Springer in favor of a bill known as the trade dollar bill—a bill in the interest of speculators. The letter-carrier's bill would put into the pockets of letter-carriers, in the shape of reduced hours of labor, so the postoffice department claimed \$1,250,000. The passage of the trade dollar bill, actually put into the pockets of speculators \$4,000,000, every dollar of which was filched from the pockets of the poor by the law that demonetized it.

The report gives an account of the many attempts made by Representative Willis to get the Blair education bill before the house and continues:

Mr. Willis introduced a resolution to re-hear the committee on education from further consideration of the bill by a privileged question to amend the rules of the house, but he was ruled out of order by the speaker pro tempore, Mr. Springer, and in an interminable manner, in the opinion of the committee, Mr. Willis withdrew his motion with the remark that he would renew it when the regular speaker was in the chair, which he did on the fifth, only to be antagonized by Mr. Springer with points of order. It is the opinion of the friends of the measure that the committee on education was packed against the bill by the speaker.

The Church and Labor.

Cardinal Gibbons, who has just returned from Rome, will call a council of the 11 archbishops of the American Catholic hierarchy, and then, it is stated, decisive steps will be taken which will leave no doubt of the church's attitude on the labor question. Until this council is held the cardinal refuses to say anything of his intended action. It is predicted that the council will concede the right of laboring men to combine for their common benefit and all such lawful combinations will receive the blessing of the church. But, it is stated, Catholics will be forbidden to take part in boycotts and to join any institution which practices intimidation, whether of a violent or other character. No Catholic will be permitted to become a member of any order which binds its members to secrecy or blind obedience to the dicta of its leaders. Secret passwords may be permitted, but a Catholic must have no secret which cannot be reached by the confessional if necessary. It will also be proposed that a closer relation be brought about between Catholic members of labor organizations and the Catholic clergy, to prevent Catholic laboring men from drifting off from their churches on account of their association with labor unions, and to keep them from adopting theories which are antagonistic to the church's demands.

Where's Howgate?

An ex-member of the signal corps in conversing with a reporter of a Washington paper, made the assertion that the war department was never very anxious to prosecute Capt. Howgate on the charge of embezzling government funds while chief signal officer. "Capt. Howgate has never been out of the country," said the gentleman, "and there has not been a time since he left here that he could not have been brought back within three days if he had been wanted."

Being asked as to Howgate's present whereabouts, the ex-member said:

"I don't exactly know where he is to-day, but I could find out inside of an hour and half. Why, when I was away from leave last summer I met the captain on the street one day in a city not 1,000 miles from Washington, and if he is not there yet, I know I could find him in an hour or so. He has several regular correspondents in the city, and his whereabouts are always known to his friends. If the war department officials wanted the captain very bad, they would not have much trouble in finding him."

OVER THE VETO.

The Senate Has Passed the University Appropriation Bill.

The Liquor Question, Railroad Matters and Legislative News Generally.

The University appropriation bill recently vetoed by the governor was taken up the other afternoon. Senator Sharp read from the governor's inaugural message a section commanding the legislature careful consideration of the estimates for laboratories at the university. There was nothing in the message to indicate his disapproval of the appropriation and no such disapproval was intimated in any way until the message of June 2. The senator referred to the proposition to raise the tuition of non-resident students and said that was a matter that ought to be left with the regents, where it had been by law for thirty-six years. He referred to other appropriations and said the legislature had shown no greater liberality to the university than to other state institutions. Senator O'Reilly said that he favored economy, but he understood that sustaining the veto would cripple the university. He therefore voted to sustain the governor for some other time. The bill passed over the veto by a vote of 26 to 5.

The senate has settled the question of reduced railroad fares for this session at least, the vote fixing the fare at two cents standing fares, 3 cents 2 1/2. This was a fair vote on the 5-cent proposition and was accepted by all parties interested. The bill then passed, leaving railroad fares unchanged, but simply providing for the construction of tunnels and their approaches. In order to finish the Michigan municipalities may be used as security by banks when the amount of bonds issued does not exceed one-tenth the assessed valuation of the municipality. As the bill left the senate the bill was one-fifth of the assessed valuation of real estate. After completing consideration the committee rose and the bill passed by a vote of 51 to 7. This bill was carefully considered by the regents in the state before it passed the senate and met with general approval, both by commercial banks and savings banks. It is to be submitted to a popular vote at the November election in 1902.

Both houses have adopted a joint resolution accepting the government appropriation of \$25,000 for an experimental station at the agricultural college.

The German bill, which has been the subject of much discussion in Catholic circles, and which would exempt Catholics from the payment of the church tax, has been taken from the table in the senate, ordered printed and placed upon the general order. The object of the bill is to place the title to the Catholic church in trustees instead of the bishop individually.

The senate spent one morning session in the discussion of and passed the bill to separate the Saginaw and Carleton. The speech throughout the whole debate was excellent, each in its line, but had not the slightest effect on the result. Mr. Edwards' amendment, providing for summing the question to vote of the people in the three municipalities interested, was voted down, with only himself and Mr. Harshaw in the affirmative. The house promptly concurred in the bill, and it was then concurred in, vote 33, nay Mr. Edwards. The senate took a recess, and a speech from Mr. Herz wound up the Saginaw proceedings. It is to be submitted to a popular vote at the November election in 1902.

Both houses of the legislature have adopted resolutions of thanks and congratulations to the Orchard Lake cadets for their achievements.

The senate has passed the bill to prohibit the sale of intoxicating liquors to inmates of the soldiers' home at Grand Rapids except when absent on furlough.

The house has defeated the bill to regulate the employment of labor in prisons.

The bill to establish local option by county election for that purpose to be held upon request of one-fifth of the voters enumerated at the last preceding election for governor, came up in the house this afternoon and was passed by the exact constitutional majority.

Mr. Cronell's election bill for white, red and blue tickets, to be crossed and checked opposite the candidates, passed, in the Canadian style, passed the house by a vote of 57 to 35.

The house has passed the bill appropriating \$25,000 for the upper peninsula mining school.

The governor has signed the bill authorizing probate judges to send inigent persons to any private asylum in the state.

The senate has passed the "graveyard insurance" bill. The section containing the clause of insurance was only passed after much discussion. The bill makes 60 years the limit of the insurable age. The bill as it finally passed the senate is in a condition rather more satisfactory to the friends of safe insurance than it was when it left the house.

The governor has approved the bill appropriating money for additional building improvements and general repairs at the Jackson prison.

The governor has signed the marriage license bill, and the marriage business in this state is now made steel-clad.

The oleomargarine bill has passed the house finally and now goes to the governor. This is the bill that restricts the trade in oleum butter by compelling signs to be put up where it is used.

An Important Decision.

The judge of the United States circuit court at Raleigh, N. C., has rendered one of the most important decisions in the matter of repudiation by a southern state of interest on the state bonds that has been given in many years, deciding the case of special tax bondholders in their favor. The court holds the state amenable to be sued by its own citizens, where the Federal question is presented by the passage of laws impairing the obligation of the contracts. The decision holds that the act passed by North Carolina to stop the collection of taxes to pay the interest on \$100,000 of bonds issued in 1858 are null and void, and that the agents of the state must proceed to collect taxes to pay in interest. North Carolina funded all her debt except this issue of bonds. It is expected a special session of the legislature will be called to consider the situation produced by the decision.

The Grant Monument.

The Grant monument association has issued a circular calling for designs for a monument or memorial building to be erected upon the site of Gen. Grant's tomb. The structure to be of granite, marble, bronze or other suitable material, singly or in combination, and may include both architecture and sculpture. The designs will be passed upon by a jury of architects and artists. They should be sent before Nov. 1 to the office of the association, 143 Broadway, N. Y.

Attention Asked for by Dr. A. M. Spaulding: Rheumatic Syrup Co.

Gentlemen—I am prescribing Hibbard's Rheumatic Syrup in my practice and unhesitatingly recommend it for the diseases which you claim it is good for. It is truly a remarkable medicine, composed as it is of the best alteratives and tonics to be found in the Materia Medica. It operates upon the liver, kidneys and bowels, destroying the poison in the blood and tissue. It is a grand tonic and appetizer, and truly a wonderful preparation. For a diseased stomach or a dyspeptic nervous system, it is equally good. It should have the approval of the medical faculty. Your Rheumatic plasters are the best I have ever used, and should be worn over the chest, the back, the sides, the lungs, or pains in the chest and stomach.

Very truly,
DR. A. M. SPAULDING,
119 Canal Street, Grand Rapids, Mich.

Read the Statement of Rev. Jas. Berry, Rheumatic Syrup Co.

Last winter and spring I was a terrible sufferer from rheumatism in my left shoulder and arm, suffering the most excruciating pain. I used several highly recommended remedies, but continued to suffer. I then procured a bottle of Hibbard's Rheumatic Syrup, took it according to directions, have used two bottles and it cured me. I can with confidence recommend it to all who are suffering with rheumatic difficulty.

Very truly yours,
JAMES BERRY,
Morley, Mich., Dec. 8, 1893.

Boston Courier: The stockholder's motto—Man wants, but little here below—par.

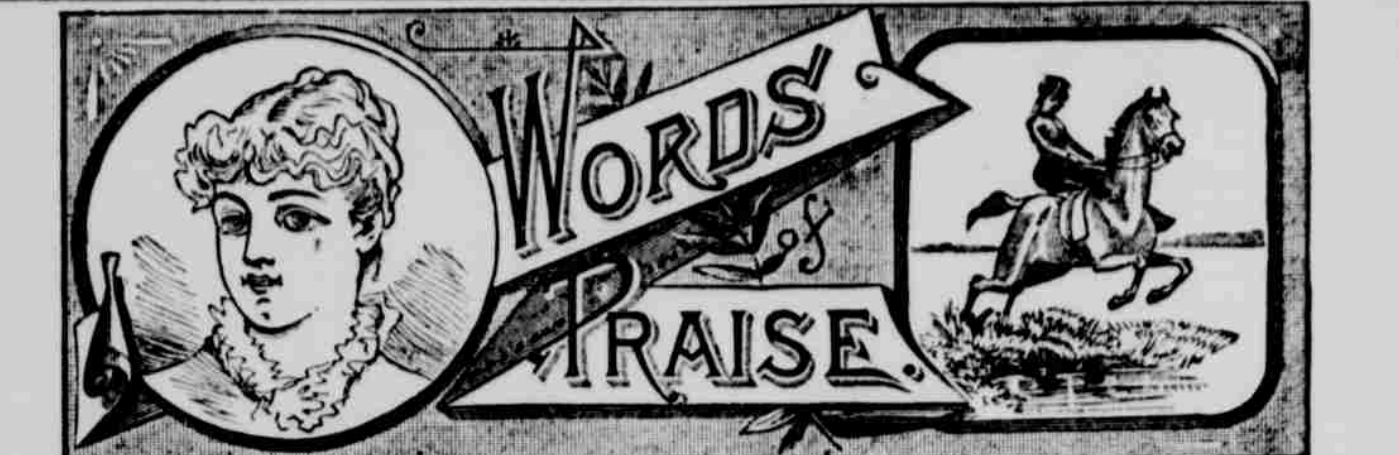

Prematurely Aged.

Many a woman is robbed of those charms which the gods so richly bestow, and made old before her time by functional irregularities. To such the bloom of youth may be restored by the use of a remedy which has stood the test of time and which is to-day acknowledged to be without an equal as a cure for all female weaknesses—Dr. Pierce's "Favorite Prescription." By all druggists.

American Merchant Traveler: Successful treachery is worse than honest defeat.

"Gentle as the Breeze of Evening."

This line of an old hymn is quite appropriate when applied to Pleasant Purgative Pills. "Gentle as the Breeze of Evening," can avoid it, we often hear persons say, "because they constipate me so." Now the "Pillots" never do this. They are so gentle and mild that they effect almost immediate relief to all other bowels, and no unpleasant effects are left behind.

The following words, in praise of Dr. PIERCE'S FAVORITE PRESCRIPTION as a remedy for those delicate diseases and weaknesses peculiar to women, must be of interest to every sufferer from such maladies. They are fair samples of the spontaneous expressions with which thousands give utterance to their sense of gratitude for the inestimable boon of health which has been restored to them by the use of this world-famed medicine.

\$100 THROWN AWAY.
JOHN E. SERRA, of Millbrook, Va., writes: "My wife had been suffering for two or three years with female weakness, and had paid out one hundred dollars to physicians without relief. She took Dr. Pierce's Favorite Prescription and it did her more good than all the medicine given to her by the physicians. She had been practicing upon her, and she was cured. I think it invaluable."

THE GREATEST EARTHLY BOON.
The "Favorite Prescription" is the greatest earthly boon to us poor suffering women."

THREW AWAY HER SUPPORTER.
Mrs. SOPHIA F. BOWWELL, White Cottage, O., writes: "I took eleven bottles of your 'Favorite Prescription' and one bottle of your 'Pellea.' I am doing my work, and have been for some time. I have had to employ help for about sixteen years before I commenced taking your medicine. I have had to wear a supporter most of the time; this I have laid aside, and feel as well as I ever did."

IT WORKS WONDERS.
Mrs. MAY GLEASON, of Natick, Ottawa Co., Mich., writes: "Your 'Favorite Prescription' has worked wonders in my case. Again she writes: 'Having taken several bottles of the 'Favorite Prescription' I have regained my health wonderfully, to the astonishment of myself and friends. I can now be on my feet all day, attending to the duties of my household."

TREATING THE WRONG DISEASE.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he prescribes his pills and potions, assuming, with no better reason, that they are all only symptoms of the same disease. The physician, ignorant of the cause of suffering, encourages his practice until large bills are made. The suffering patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper medicine, like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms and instituting comfort instead of prolonged misery.

3 PHYSICIANS FAILED.
Mrs. E. F. MORGAN, of No. 71 Lexington St., East Boston, Mass., says: "Five years ago I was a dreadful sufferer from uterine troubles. Having exhausted the skill of three physicians, I was completely discouraged, and so weak I could with difficulty cross the room. I began taking Dr. Pierce's Favorite Prescription, and in three months I was perfectly cured, and have had no trouble since. I have received over four hundred letters in reply. I have described my case and the treatment used, and have earnestly advised them to 'do likewise.' From a great many I have received second letters of thanks, stating that they were cured of their disease. Dr. Pierce's Favorite Prescription, had sent the \$1.50 required for the 'Medical Adviser,' and had applied the local treatment so fully and plainly laid down therein, and were much better already."

JEALOUS DOCTORS.
A "Marvelous Cure." Mrs. G. F. SPRAGUE, of Crystal, Mich., writes: "I was troubled with female weakness, leucorrhoea, and failing of the womb for several years. I had been to a number of different physicians, and spent large sums of money, but received no lasting benefit. At last my husband persuaded me to try your medicine, which I was loath to do, because I was prejudiced against them, and the doctors said they would do me no good. I finally found my husband that if some of your medicine, which I would try them against the advice of my physician. He got me six bottles of the 'Favorite Prescription,' also six bottles of the 'Discovery,' for ten dollars. I took three bottles of 'Discovery' and four of 'Favorite Prescription,' and I have been a sound woman for four years. I then gave the balance of the medicine to my sister, who was troubled in the same way, and also cured herself in a short time. I have not had to take any medicine now for almost four years."

THE OUTGROWTH OF A VAST EXPERIENCE.

The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, has enabled Dr. Pierce to give you a vast experience in nicely adapting and thoroughly testing remedies for the cure of women's peculiar troubles. Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials received from patients, and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove its efficacy. It is a most perfect specific for women's peculiar ailments.

As a powerful, invigorating tonic, it cures nervous debility, restores vitality, and to the uterus, or womb and its appendages, in particular. For overworked, worn-out, "run-down," nervous, hysterical, neurasthenic, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing and restorative tonic. It promotes digestion and builds up the system.
